

## Executive Director of Children, Young People and Learning (DCS)

### Join us – Make a Difference in our communities

West Sussex as an area is rapidly changing with increasing pressures from our demographics, continuing challenges to provide our residents and communities with greater levels of choice to support improved outcomes in their lives and of course we need to do this within tighter financial constraints. We recognise therefore that our organisation, working with and alongside our partnerships, needs to fundamentally change.

Within this context, West Sussex County Council is committed to putting Children First and improving the services in everything we do. We are clear that the positive change we want to achieve for our children will require everyone to work together, across the council, and partner agencies that all have a vital role in creating the environment where good practice can flourish.

By working together with our partners we intend to ensure consistently high standards in the care, protection, and opportunity, we provide to children, enabling the best possible outcomes. The service has recently received significant financial investment in recognition of the challenges that it faces in the context of a very recent Ofsted ILACS inspection. Plans are in place to address these challenges but we need to move at pace.
